*sme bobulky zelené
na strapcoch si rastieme*

*sme červené kôstkovice,
dievčatká si z nás robia náušnice*

*patrím medzi bobule
a obsahujem veľa vitamínu C*

*síce mám tvar žiarovky,
ale nesvietim,
patrím medzi malvice
a dozrievam v jeseni*

*fialovú ja mám tvár,
výborná som na lekvár*

NAPÍŠ:

dva príklady malvice

tri kôstkovice

tri druhy ovocia, ktoré rastie na strome

štyri príklady ovocia, ktoré rastie na kríkoch

tri názvy ovocia, ktoré začínajú na mäkkú spoluhlásku

tri začínajúce na tvrdú spoluhlásku

dva druhy ovocia, ktoré u nás nerastie

tri druhy žltého ovocia

dva druhy ovocia, ktoré rastie v strapcoch

POČÍTAME

Janko nazbieral 12 hrušiek, Evka 16, Jožko 14 a Ivanka 10. Koľko nazbierali deti spolu?

Mamka na prípravu koláča potrebuje 3 jablká. Koľko jabĺk bude potrebovať na dva koláče? A koľko jabĺk jej treba na tri koláče?

Na strome narástlo 72 čerešní. 15 spadlo na zem, 12 vyzobali drozdy, zvyšok ocko pooberal do košíka. Koľko ich tam bolo?

Zuzka v záhrade odtrhla 15 jahôd a chcela sa podeliť aj so svojimi kamarátkami Luckou a Petkou. Ako sa dievčatá spravodlivo rozdelia?
